

Interactive Seminar: Characterisation and Analytical & Synthetic Chemistry

Date: 11th - 12th March 2019 / 09:00 - 16:00 hrs
Venue: Elilly International Hotel, Guinea Conakry Street, Addis Ababa, Ethiopia

About this seminar:

This seminar will focus on the application of rheological measurements, material & particle characterisation techniques, sample preparation & synthetic Chemistry solutions in industry & research.

We will provide technical insights into the following topics during this seminar:

- Anton Paar at a glance
- Introduction to Anton Paar's Characterisation product portfolio, Analytical & Synthetic Chemistry Analyzers
- Applications across industries like education, research and development

Speakers:

Mr. Ivan De Waal
- Managing Director
Anton Paar Southern Africa

Mr. Armel Nyoubissi
- Area Sales Manager
East, Central & West Africa

Ms. Jocelyne Abreu
- Business Unit Manager
Anton Paar Southern Africa
